

X-ACTO®

Every once in a while, a line of products proves to be exactly right for doing many different jobs very well. And, in such unusual cases, the products tend to find widespread recognition and a broad diversity of enthusiastic users.

At X-ACTO this has been our gratifying experience since 1935. Over the years that we have been manufacturing and marketing precision knives and tools, we have made a great variety of friends. Among them are hobbyists, craftsmen, artists, handymen, designers, technicians, draftsmen, printers, and architects.

We hope that the products — both familiar ones and the new ones — presented here in our 45th anniversary catalog will help us to make many new friends and to serve old ones more completely.
