## THE QUALITY OF X-ACTO®

X-ACTO Blades, Knives and Tools have offered unsurpassed quality, reliability and craftsmanship to design and graphics professionals as well as amateur craftspersons for over 50 years. Today, X-ACTO continues to present an outstanding selection of products created to handle an almost limitless range of tasks with accuracy and ease.

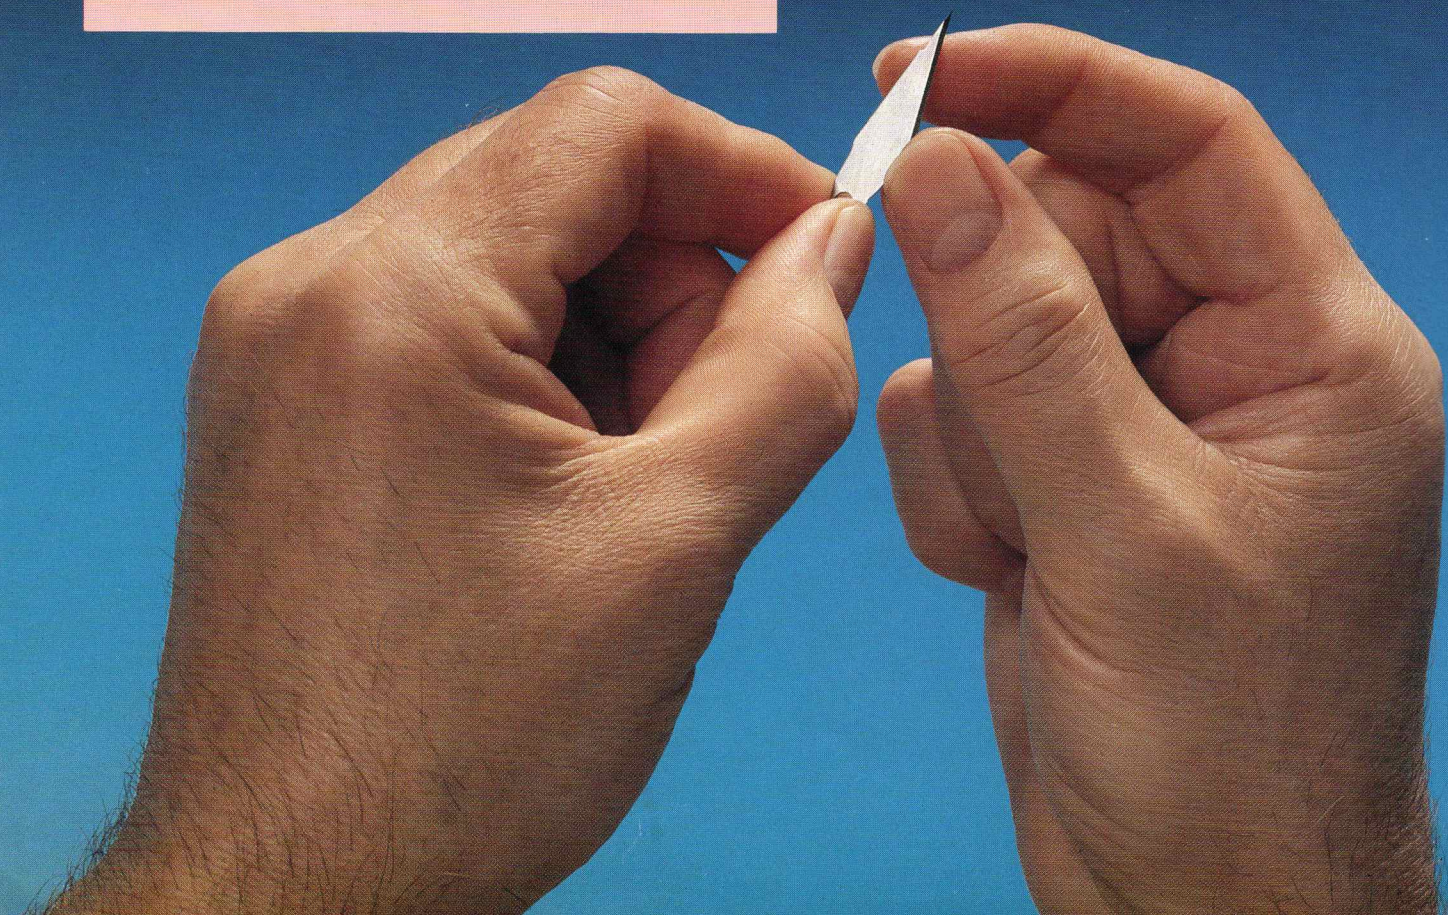

Consider the quality that goes into every X-ACTO Blade. Produced from domestic carbon steel, rigidly tested for hardness, each blade is manufactured to the most stringent specifications. Special abrasives are used during sharpening and honing. After testing and cleaning, an oil bath coats every blade to prevent rust. The result is a blade of unequalled value and performance.

This same attention to detail goes into every X-ACTO product—from knives and blades to tools and sets. Whether you're a designer, artist, craftsperson or do-it-yourselfer, you can always count on our products to help you do it X-ACTO right.

### LET YOUR IMAGINATION SOAR WITH X-ACTO®

Introduce yourself to a new world of exciting arts & crafts projects, and hobbies, too, with X-ACTO. Here's just a few of the ways you can get creative with X-ACTO Knives and Tools:

- Paper sculpture a lampshade in a beautiful floral pattern.
- Create a mobile out of colorful paper shapes.
- Craft a glider out of balsa wood that really flies.
- Carve your own special holiday decorations and ornaments. (They make terrific gifts, too!)
- Experiment and try your hand at new projects—let your imagination soar with X-ACTO.

## HOW TO USE YOUR X-ACTO KNIVES

There are two basic techniques for using an X-ACTO knife: the Draw and the Thumb-Push methods. Practice both techniques to find which is the most comfortable for you. (These instructions are for a right-handed person, please reverse the hand positions if you're left-handed.)

The Draw Method cuts toward your body. Your right hand guides the knife and supplies the power, while your left hand steadies the work. Always cut slowly and carefully.

The Thumb-Push Method provides more control over the knife. With this technique you cut away from your body, so that your right hand guides the knife, while your left thumb does the pushing. Remember to cut slowly and carefully.

# BOARD CUTTER AND SELF-HEALING MATS

## X-ACTO BOARD CUTTER

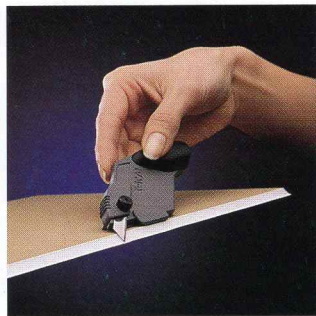

The perfect knife across the board. Precisely and neatly cuts boards and mats, even foam board up to 1/2" thick! The flat support base makes it easy to make clean 90° cuts, while a special adaptor produces precision 45° bevel cuts for mats and foam board corners. The blade depth is adjustable up to 9/16" for deep cuts on a single pass, and blades can be mounted on both sides of the cutter for parallel cutting. Soft grips on the handle provide extra comfort and control. Uses standard X-ACTO 8R replacement blades. No. X7747 Carded

X7747

Makes perfect 90° cuts

Precisely cuts 45° bevels

X7750

## X-ACTO X-IT®

A safe, attractive disposal unit for used blades. X-IT eliminates the dangers of throwing individual blades in the trash as well as the tedious taping of blades before discarding. The X-shaped slots are designed to accept all X-ACTO knife blades, and also single-edge and utility knife blades. Simply dispose of unit when full.

No. X7750

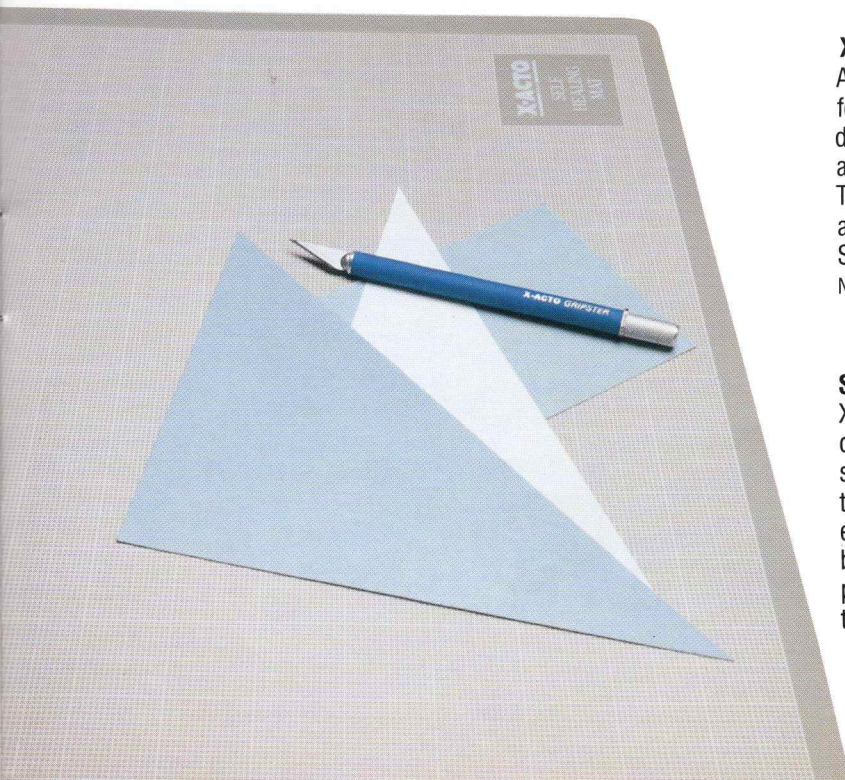

## SELF-HEALING MATS

X-ACTO Self-Healing Mats are a cut above in many ways. The special surface and core work together to shrug off the effects of cutting with sharp blades. There's a one inch grid pattern to aid in accurate cutting. Choose opaque gray style

with non-slip bottom, or translucent white style for use on lightboxes—both available in 4 sizes.
